Captain Worrall presented information regarding surveillance for the Entertainment Corridor and public parking lots east and west of Beach Boulevard, to address safety concerns. The system utilizes a high definition 360 degree camera, media storage, and includes installation of emergency telephones, and a relay system that could accommodate add-ons and enhancements for \$266,000. The system would provide 360 degree surveillance, pan/tilt/zoom camera that can be operated remotely by the Watch Commander.

Council Member Smith inquired about the existing camera, poles and wires at Beach Boulevard and Orangethorpe Avenue. Captain Worrall commented that camera and technology is old, and not sure if it is still used. The vendor is requesting installation of poles for additional height.

Mayor Vaughn inquired if additional cameras could be added for \$6,000 - \$7,000. Captain Worrall stated the system is wireless and can accommodate additional cameras.

Council Member Swift commented about the cost and her preference to hire another police officer, and expressed concern about the public feelings about the invasion of privacy and being constantly watched by "big brother".

City Clerk Jimenez reported on translation equipment available for meetings. Council Member Swift commented about one instance when translation was requested, and inquired if there have been any other requests from the public. City Clerk Jimenez stated there have been no requests and/or concerns from the public. Under the Brown Act, the City is required to allot double the time to speak for those requiring a translator for back and forth communication.

Council Member Berry asked if this is utilized where the Council also wears a headset to hear the communication in English. City Clerk Jimenez stated it would be for the public, and information would be translated to the requestor through the headset and not to the City Council. Council Member Swift commented about the number of and which languages for translation, and the cost for the service. City Clerk Jimenez stated she hasn't researched cost information. The City could ask that members of the public notify the City 24 to 48 hours in advance, allowing the City time to make arrangements for translation services. Mayor Vaughn commented that the City has a list of employees who speak other languages. Council Member Berry inquired about members of the public bringing their own friend or family member to translate, and arranging for a translator, and the requestor not show up to the meeting. City Clerk Jimenez commented that relaying the correct information or meaning of the discussion could be a concern if the requestor brings their own translator, and the City has used its bi-lingual employees in the past. Mayor Pro Tem Brown commented the agenda states notify the City 48 hours prior to the meeting for translation services. Council Member Smith commented about the existing equipment in the Council Chamber for the hearing impaired.

Following discussion, the City Council directed the City Clerk to research translation equipment and services costs, and bring back for City Council consideration.
